### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In line 1 of claim 30, (previously amended) has been replaced with (previously presented)

### ***Allowable Subject Matter***

2. Claims 1-42 allowed.

The following is an examiner's statement of reasons for allowance:

The reason for allowance of claim 1 has been stated in the previous final office action (paper no. 1203). Regarding claims 10, 29, the applicants have presented a persuasive argument, see the second and third paragraph on page 12 of the response filed 3/22/2004 that the combination of the closest cited prior art of Lin et al (US 6,057,207) and Parat et al (US 6,194,784) does not disclose or suggest a method for processing a semiconductor substrate comprises the step of depositing a trench oxide that both fills one or more trenches separating first and second device regions of a substrate and covers a first nitride layer disposed above a first oxide layer because adding the step of forming a reflowed dielectric layer as per Parat over Lin's nitride etch

Art Unit: 1765

barrier layer 44/first nitride layer would have covered Lin's high areas 40 thereby  
destroying Lin's process.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
